

BKBIET — Placements & Recruiters Knowledge Base

For Smart College Chatbot • placement trends, packages, recruiters, job offers and placement-related claims

This document is a retrieval-oriented knowledge base compiled from publicly accessible web pages and PDFs available during the research snapshot on 24 September 2026. Official BKBIET sources are prioritized. Where an official current figure was not available, a clearly labelled secondary source is included. “Every information” is interpreted as a broad practical scrape/compilation of the publicly indexed information most useful for a college chatbot, not a guarantee that every page, historical document, image, or private portal has been exhaustively captured.

1. Current Official Placement Snapshot — Batch 2025-26

Metric	Official figure
Number of companies visited	31
Highest package offered	11.0 LPA
Average package	4.90 LPA

The 2026 BKBIET brochure labels these as “Placement Highlights of Batch 2025-26.” It does not publish a lowest package in that table.

<https://bkbiет.ac.in/wp-content/uploads/2026/04/BKBIET-Brochure-2026.pdf>

2. Recent Secondary Placement Data — Cross-check

A secondary source (CollegeDunia) reports 2025-26 as 193 eligible students, 30 companies visited, 80 job offers, highest package ₹8.5 LPA and average ₹5.40 LPA. These figures conflict with the institute's 2026 brochure on company count and highest package, so they should be stored as a separate source rather than blended with official figures.

Source / year	Companies	Job offers	Highest	Average
BKBIET official brochure, 2025-26	31	Not stated	11.0 LPA	4.90 LPA
CollegeDunia, 2025-26	30	80	8.5 LPA	5.40 LPA

<https://collegedunia.com/college/12937-bk-birla-institute-of-engineering-and-technology-bkbiет-pilani/placement>

3. Historical Official Placement Trend

Year	Companies	Job offers	Highest package
2019	30	155	12 LPA
2020	55	110	10 LPA
2021	98	130	12 LPA
2022	118	150	20 LPA
2023	85	135	9 LPA

This table comes from BKBIET's Placement Brochure 2024-25 and is therefore a historical trend, not a current-year forecast.

<https://bkbiет.ac.in/wp-content/uploads/2024/09/Placement-Brochure-2024-25.pdf>

4. Batch 2022-23 / 2023 Placement Data

Metric	Published figure
Recruiters offering placements	80+

Metric	Published figure
Job offers	130+
Highest package	36 LPA
Average package	5.5 LPA
Recruiters offering above 5 LPA	35+

The official placement presentation also gives a detailed recruiter/job-offer distribution: 26 recruiters in 10–20 LPA, 42 in 5–10 LPA, 34 in 3–5 LPA and 15 in 2.5–3 LPA, for a total of 117 recruiter entries and 136 job offers in that summary.

<https://bkbiet.ac.in/wp-content/uploads/2024/05/BKBIETBrochure2024-2025.pdf>

5. Earlier Official Placement Data

The 2022 BKBIET brochure reports that for batch 2021, more than 95 companies visited and students received more than 130 job offers, with a highest package of 12 LPA. For batch 2022, it reports more than 80 companies, more than 105 job offers and a highest package of 10.4 LPA at the point the brochure was published.

<https://bkbiet.ac.in/wp-content/uploads/2022/04/BKBIET-Brochure-2022.pdf>

6. Lowest Package

The current official B.Tech placement material located in this research does not publish a lowest package for the latest 2025–26 batch. A public student-review site gives a broad lowest-package range of roughly ₹2.5–3 LPA, but that is an individual/user-generated claim rather than an official institutional statistic. Do not present it as an official BKBIET figure.

7. Recruiters

The institute's campus recruitment page lists a large recruiter directory. Examples visible in the public list include TCS, Tech Mahindra, Wipro Elite, WNS, Samsung R&D, Synopsys India, Secure Meters, VVDN Technologies, Virtusa, ZS Associates, Accolite Digital, Aditya Birla Group, BYJU'S, Celebal Technologies, Cvent, Dotsquares, GrapeCity, InfoObjects, Liferay, Rapid Circle, Secure Meters, Trilogy Innovations, Unthinkable and many others.

The chatbot should answer recruiter questions from the institute's directory and attach the source, because recruiter participation changes by recruitment cycle.

8. Placement Process / Training

BKBIET describes training methods including presentations, live projects, educational and industrial tours, seminars, engineering chapter activities, aptitude tests, extempore, mock group discussions and personal interviews. The institute also promotes internships and industrial training.

<https://bkbiet.ac.in/note-from-placement-cell/>

9. Placement Rate / Number Placed

An NBA compliance document for the CSE programme reports, for the CAY 2023–24 batch (Batch-2020), 129 final-year students and 62 students placed in companies; for CAYm1 2022–23 it reports 135 final-year students and 93 placed; for CAYm2 2021–22 it reports 113 final-year students and 107 placed. These are CSE-specific accreditation figures and should not be generalized to the whole institute.

<https://bkbiet.ac.in/wp-content/uploads/2024/06/UpdatedCompliance2023-24NBACSE.pdf>

10. Important Data Integrity Rule

Placement numbers vary by batch, publication date, definition of “company,” branch, eligible-student pool and whether recruitment was still ongoing. Your RAG chatbot should store source + batch/year + scope for every placement fact. When two sources conflict, show the conflict instead of silently choosing one.
