

BKBIET — Faculty, Leadership, Staff & People Knowledge Base

For Smart College Chatbot • leadership, faculty, staff, roles, qualifications, experience and student-facing responsibilities

This document is a retrieval-oriented knowledge base compiled from publicly accessible web pages and PDFs available during the research snapshot on 24 September 2026. Official BKBIET sources are prioritized. Where an official current figure was not available, a clearly labelled secondary source is included. “Every information” is interpreted as a broad practical scrape/compilation of the publicly indexed information most useful for a college chatbot, not a guarantee that every page, historical document, image, or private portal has been exhaustively captured.

8. Faculty / Staff Behaviour — What Can Safely Be Stored

The public sources reviewed do not provide reliable, person-by-person objective measurements of a teacher's "behavior." The chatbot should therefore NOT invent traits such as friendly, strict, rude, helpful or unfair. It can store documented roles, qualifications, experience, club responsibilities, event coordination and attributed statements.

For example, BKBIET's official event pages document faculty participation in farewell, literary festivals, expert talks and student activities. These establish involvement in activities, but they do not prove a person's general personality or behaviour.

<https://bkbiet.ac.in/essential-soft-skills-in-the-ai-era/>

9. Student-Review Data Handling

If you later ingest student reviews, store them as attributed opinions with review date and platform. Do not convert a small number of reviews into an objective claim about a teacher. A chatbot answer should say, for

example, “Some publicly posted reviews describe X as ...” rather than stating the description as fact.

This is especially important for faculty reputation data because it can become outdated when instructors, responsibilities or student cohorts change.

10. People / Leadership Data Integrity Rule

Faculty rosters change. The official BKBIET faculty page is the primary source for current names, roles, qualifications, joining dates and experience. For your RAG pipeline, store the page date/crawl date and refresh this collection periodically.
